

KAREEM IBRAHIM

Full Stack Developer

React · Next.js · Node.js · TypeScript · Laravel

✉ ibrahemkareem043@gmail.com | ☎ +20 120 777 1639 | 🌐 github.com/x1964 | 🔗 linkedin.com/in/kareem-ibrahim

PROFESSIONAL SUMMARY

I build production-ready web applications that solve real business problems. With 2+ years of hands-on experience and 6+ shipped client projects, I specialize in turning ideas into scalable, high-performance products. Whether you need a sleek frontend, a robust API, or a full-stack solution from scratch — I deliver clean code, on time, with measurable results. I founded my own software studio (Elkok) and manage the entire product lifecycle: from architecture and development to deployment and client delivery.

★ WHY WORK WITH ME

- ★ **End-to-End Delivery** — I handle everything from database design to UI polish. No need to hire multiple freelancers.
- ★ **Proven Track Record** — 6+ completed projects across e-commerce, education, and SaaS. Real users, real results.
- ★ **Fast & Reliable** — Reusable component libraries and standardized workflows cut delivery time by 20%.
- ★ **Client-First Approach** — Direct communication, transparent progress updates, and requirements translated into technical specs.
- ★ **Performance Obsessed** — Lighthouse scores above 90, ~30% faster page loads through optimization techniques.

CORE COMPETENCIES

▸ Frontend React 18, Next.js 14, TypeScript, Tailwind CSS, Framer Motion, Responsive UI	▸ Backend Node.js, Express.js, PHP 8, Laravel 11, REST API Design, JWT Authentication	▸ Database MySQL, MongoDB, Eloquent ORM, Query Optimization
▸ DevOps Git, GitHub Actions, Docker, Vercel, cPanel, Linux CLI	▸ Design Figma, UI/UX Principles, WCAG Accessibility, Mobile-First Design	▸ Process Agile/Scrum, Code Review, Unit Testing, CI/CD, Client Communication

PROFESSIONAL EXPERIENCE

Software Engineer

Triply — Alexandria, Egypt

Jan 2024 – Dec 2025

2 Years

- Built responsive React 18 + TypeScript interfaces with code splitting & lazy loading, cutting page load times by ~30%

- ▶ Designed RESTful APIs in Node.js & PHP handling core product data flows with improved reliability & reduced error rates
- ▶ Shipped weekly feature releases in Agile sprints with zero critical regressions
- ▶ Established ESLint/Prettier standards & component-level unit testing, reducing code review cycles by ~25%
- ▶ Mentored junior developers on React architecture, component patterns, and Git workflows

Founder & Lead Developer

Jan 2025 – Present

Elkok Software Studio — Remote / Alexandria, Egypt

Current

- ▶ Founded and operate a client-facing software studio serving 6+ projects across education, e-commerce, and services
- ▶ Sole architect & developer: technical direction, scoping, and full delivery from concept to deployment
- ▶ Reduced average project delivery time by 20% through reusable component libraries & standardized project scaffolds
- ▶ Managed direct client relationships: requirements gathering, progress communication, and business-to-tech translation
- ▶ Deployed all projects to cloud infrastructure (Vercel, shared hosting) with environment configuration & post-launch monitoring

◆SELECTED PROJECTS

▶ **Narqa Academy** — narqa-academy.lovestoblog.com

React · TypeScript · Tailwind CSS · REST API

Full-featured e-learning platform with course creation, student enrollment, progress tracking, and responsive dashboard — built to scale to thousands of learners.

▶ **E-Commerce Store** — x1964.github.io/buy-products/

React · Tailwind CSS · JavaScript

Product listing & shopping cart with real-time filtering, category navigation, and mobile-optimized checkout flow.

▶ **Mindfull Space** — mindfull-space.vercel.app

HTML5 · SCSS · JavaScript

Mental wellness web experience with immersive scroll-driven animations. Achieved Lighthouse performance score above 90.

▶ **Translation App** — x1964.github.io/Translation/

JavaScript · External REST API · CSS3

Real-time multi-language translation integrating third-party NLP API with instant results, language-pair switching, and clipboard copy.

▶ **Game Charging Platform** — kareem-crypto.github.io/Game-Charging/

HTML5 · CSS3 · JavaScript

Online game top-up storefront with product catalogue, game-ID validation, and guided payment flow UI.

◆TECHNICAL SKILLS

- ▶ **Frontend:** React 18, Next.js 14 (App Router), TypeScript, JavaScript ES2023, HTML5, CSS3, Tailwind CSS, SCSS, Framer Motion
- ▶ **Backend:** Node.js, Express.js, PHP 8, Laravel 11, Python, REST API Design, JWT Auth, OAuth
- ▶ **Database:** MySQL, MongoDB, Eloquent ORM, Query Optimization, Data Modeling
- ▶ **DevOps & Tools:** Git, GitHub Actions, Docker (basics), Vercel, cPanel, Linux CLI, Postman
- ▶ **Design:** Figma, UI/UX Principles, Responsive Design, Web Accessibility (WCAG 2.1), Mobile-First

◆ EDUCATION

High School — Thanaweya Amma (Science Section)

2024 – 2025

Alexandria, Egypt

Note: Self-taught developer since age 16. Professional competency demonstrated through 2+ years of employment and 6+ shipped client products.

◆ LANGUAGES

Arabic — Native | English — Professional Working Proficiency (reading, writing, communication)

READY TO BUILD YOUR NEXT PROJECT?

Let's discuss your requirements and turn your idea into a working product.
